NOW THEREFORE BE IT RESOLVED, that the application for site plan approval and tree removal permit, as described herein, is hereby conditionally approved, subject to the following conditions and modifications; and

BE IT FURTHER RESOLVED that, this site plan approval shall expire one (1) year after the date of this resolution unless all of the conditions and modifications identified below have been substantially completed or an extension of time has been requested by the applicant or granted by the North Castle Planning Board.

Prior to the Signing of the Site Plan:

(The Planning Board Secretary's initials and date shall be placed in the space below to indicate that the condition has been satisfied.)

- _____ 1. The Applicant shall submit an exhibit demonstrating that the detached garage does not exceed 25% of the floor area of the main building to the satisfaction of the Planning Department.
- _____ 2. The proposed detached garage shall be reduced to be 15 feet in height, the maximum height permitted without the issuance of a Special Use Permit to the satisfaction of the Planning Department.
- _____ 3. All submitted architectural plans shall contain the seal and signature of the professional preparing the plans to the satisfaction of the Planning Department.
- _____ 4. The plan shall include preliminary proposed grading and illustrate and quantify the limits of disturbance to the satisfaction of the Town Engineer.
- _____ 5. The site plan shall be revised to label the existing topographic contours to the satisfaction of the Town Engineer.
- _____ 6. The site plan shall be revised to depict the location of the pool equipment pad to the satisfaction of the Town Engineer.
- _____ 7. The site plan shall depict the discharge of the pool drawdown release to the proposed stormwater mitigation system to the satisfaction of the Town Engineer.
- _____ 8. The site plan shall be revised to depict elevations along the driveway to clarify the locations of the proposed catch basins to the satisfaction of the Town Engineer.
- _____ 9. The applicant shall provide a detail of the pool deck drainage collection system to the satisfaction of the Town Engineer.
- _____ 10. The drainage schedule includes drainage manholes and catch basins. Provide details of the structures to the satisfaction of the Town Engineer.

- _____ 11. The applicant is proposing 2' x 2' drain inlets, 2' x 2' yard drains and 12" x 12" yard drains. It is difficult to fully understand the locations where each type of structure is proposed, clarify. While the small drainage inlets may be appropriate for each localized drainage area, the smaller structures may present maintenance issues when installed at greater depths, due to their limited size. There appears to be certain deep structures which should be increased in size to accommodate maintenance access. Address to the satisfaction of the Town Engineer.
- _____ 12. Payment of all applicable fees, including any outstanding consulting fees, pursuant to the master fee schedule.
- _____ 13. The Applicant shall submit to the Planning Board Secretary two (2) sets of plans (with required signature block) incorporating all required amendments to the plans as identified in this resolution of approval to the satisfaction of the Town Planner, Town Engineer and Town Attorney.

Prior to the Issuance of a Building Permit:

(The Planning Board Secretary's initials and date shall be placed in the space below to indicate that the condition has been satisfied.)

- _____ 1. The project site is partially located within the boundaries of a FEMA 100-year Floodplain, Zone A. The plans shall clearly illustrate the boundaries of the floodplain and include references to the effective FEMA FIRM Maps. There are no improvements proposed within the floodplain. As such, floodplain mitigation would not be required. However, regardless of whether or not development in the floodplain is proposed, the applicant will be required to obtain a Floodplain Development Permit prior to development of the effected lots in accordance with Chapter 177, Flood Damage Prevention of the Town Code.
- _____ 2. The approved site plan shall be signed by both the Planning Board Chair and Town Engineer.

Prior to the Issuance of a Certificate of Occupancy/Compliance:

(The Planning Board Secretary's initials and date shall be placed in the space below to indicate that the condition has been satisfied.)

- _____ 1. Payment of all outstanding fees, including professional review fees.
- _____ 2. Prior to the issuance of a certificate of occupancy/compliance, the actual construction, installation and implementation of all landscaping/mitigation shall be certified by a licensed landscape architect as being in compliance with the approved plans and conditions, at the sole cost and expense of the Applicant.

_____ 3. The submission to the Town Building Inspector of an "As Built" site plan.

Other Conditions:

1. All initial pool fillings (after construction or repair) and all subsequent pre-season yearly pool fillings (not including water loss during the season) shall be completed using off-site trucked in water. In no circumstance shall the public water supply or a private well be used for initial pool fillings and/or pre-season yearly pool fillings.
2. Prior to the start of construction and throughout the construction period, area of disturbance lines shall be clearly delineated in the field with snow fence or another demarcation acceptable to the Building Department and Town Engineer, which shall be placed around the entire proposed construction area. Except as necessary to provide mitigation plantings, no encroachment beyond these limits by workers or machinery shall be permitted.
3. Grading and clearing and other construction-related activities shall take place only within the delineated area of disturbance lines. These area of disturbance lines represent the maximum limits of construction activities. Every attempt shall be made to further reduce grading and clearing activities within the area of disturbance lines by maintaining natural vegetation and topography wherever practicable.
4. Prior to the commencement of any site work, the Applicant shall stake the location of the proposed construction for inspection and approval by the Building Department and Town Engineer.
5. All soil erosion and sedimentation control measures shown on this plan shall be in place prior to the start of any site work. The Building Department and Town Engineer shall have inspected the installation of all required soil erosion and sedimentation control measures prior to the authorization to proceed with any phase of the site work.
6. Throughout the construction period, a qualified professional retained by the Applicant shall, on at least a weekly basis, prior to any predicted rain event and after any runoff-producing rain event, inspect the soil erosion and sedimentation control measures to ensure their proper functioning. Soil shall be removed from the silt fence when bulges develop in the fence in accordance with Westchester County recommendations. Records shall be kept onsite and made available for review by Town personnel. Inspections shall be in accordance with the NYSDEC Phase II regulations.
7. If the Applicant, during the course of construction, encounters such conditions as flood areas, underground water, soft or silty areas, improper drainage, or any other unusual circumstances or conditions that were not foreseen in the original planning, he shall report such conditions immediately to the Building Department and Town Engineer. The Applicant may submit, if he so desires, his recommendations as to the special treatment

to be given such areas to secure adequate, permanent and satisfactory construction. The Building Department, without unnecessary delay, shall investigate the condition or conditions, and shall either approve the Applicant's recommendations to correct the conditions, order a modification thereof, or issue his own specifications for the correction of the conditions. In the event of the Applicant's disagreement with the decision of the Building Department, or in the event of a significant change resulting to the site plan or any change that involves the wetlands regulated areas, the matter shall be decided by the Planning Board. Any such conditions observed by the Planning Board or its agents shall be similarly treated.

8. Compliance with all applicable local laws and ordinances of the Town of North Castle and any conditions attached to permits issued thereunder.
9. The applicant shall provide sedimentation and erosion control measures to the satisfaction of the Town Engineer and in accordance with the measures set forth in the Westchester County Best Management Practices for Construction and Related Activities.
10. All landscaping shown on this plan shall be maintained in a vigorous growing condition throughout the duration of the use. All plants not so maintained shall be replaced with new plants of comparable size and quality at the beginning of the next immediately following growing season.
