To: All Interested and Involved Agencies

(See Enclosed Circulation List)

Project Name: A local law to convert the R-MF-SCH Zoning District from a floating

zone to a mapped district.

Project Location: Town of North Castle, Westchester County, New York

SEQRA Action: Type I Action - (2) the adoption of changes in the allowable uses within

any zoning district, affecting 25 or more acres of the district;

Dear Sir or Madam:

The Town of North Castle Town Board is hereby notifying you that it is reviewing a draft local law that involves converting the R-MF-SCH Zoning District from a floating zone to a mapped district.

Enclosed for your review is a copy of the full Environmental Assessment Form (EAF) and proposed Local Law.

Any other comments you may have on this application would be appreciated at this time.

Sincerely,

Adam R. Kaufman, AICP

adm Kufn

Director of Planning

#### **Section 1.** Amend Section 355-27. A as follows:

A. Legislative intent. This district is established for the purpose of furthering the goals of the North Castle Comprehensive Plan by providing a multifamily residence district specifically designed for, and limited in occupancy to, senior citizens. It is intended that this new zoning district will be a "floating zone" mapped district whose implementation will require a legislative determination and rezoning by the Town Board on a case-by-case basis after consideration of the specific site, the specific development plan and the specific housing program.

## **Section 2.** Conflicting Standards.

Where the requirements of this Local Law impose a different restriction or requirement than imposed by other sections of the Code of the Town of North Castle, the Town Law of the State of New York or other applicable rules or regulations, the requirements of this Local Law shall prevail.

#### **Section 3.** Severability.

The invalidity of any word, section, clause, paragraph, sentence, part or provision of this local law shall not affect the validity of any other part of this local law that can be given effect without such invalid part or parts.

| Section 4. Effective Date.  |
|---|
| This Local Law shall take effect immediately upon its adoption and filing with the Secretary of State |
| Dated:, 2022  |

# Full Environmental Assessment Form Part 1 - Project and Setting

# **Instructions for Completing Part 1**

**Part 1 is to be completed by the applicant or project sponsor.** Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

#### A. Project and Applicant/Sponsor Information.

| Name of Action or Project:  |            |           |

| <ul> <li>Do existing lines serve the project site?</li> </ul>  | □ Yes □ No                 |
| ii. Will line extension within an existing district be necessary to supply the project?  | □ Yes □ No                 |
| Yes:   | □ 168 □ NO                 |
| Describe extensions or capacity expansions proposed to serve this project:   |                            |
| Source(s) of supply for the district:  |                            |
| iv. Is a new water supply district or service area proposed to be formed to serve the project site? Yes:   | □ Yes □ No                 |
| Applicant/sponsor for new district:  |                            |
| Date application submitted or anticipated:   |                            |
| Proposed source(s) of supply for new district:   |                            |
| v. If a public water supply will not be used, describe plans to provide water supply for the project:  |                            |
| vi. If water supply will be from wells (public or private), what is the maximum pumping capacity:  | _ gallons/minute.          |
| . Will the proposed action generate liquid wastes?   | □ Yes □ No                 |
| f Yes:   |                            |
| i. Total anticipated liquid waste generation per day: gallons/day  |                            |
| ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe a   |                            |
| approximate volumes or proportions of each):   |                            |
|  |                            |
| ii. Will the proposed action use any existing public wastewater treatment facilities?  If Yes:   | □ Yes □ No                 |
| Name of wastewater treatment plant to be used:   |                            |
| Name of district:  |                            |
| <ul><li>Does the existing wastewater treatment plant have capacity to serve the project?</li></ul>   | $\square$ Yes $\square$ No |
| • Is the project site in the existing district?  | □ Yes □ No                 |
| • Is expansion of the district needed?   | □ Yes □ No                 |

| Do existing sewer lines serve the project site?  | □ Yes □ No                 |
|--|----------------------------|
| Will a line extension within an existing district be necessary to serve the project?   | □ Yes □ No                 |
| If Yes:  |                            |
| Describe extensions or capacity expansions proposed to serve this project:   |                            |
|  |                            |
| <i>iv.</i> Will a new wastewater (sewage) treatment district be formed to serve the project site?  | □ Yes □ No                 |
| If Yes:  | 100 110                    |
| Applicant/sponsor for new district:  |                            |
| Date application submitted or anticipated:   |                            |
| What is the receiving water for the wastewater discharge?  |                            |
| v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including speci  | fying proposed             |
| receiving water (name and classification if surface discharge or describe subsurface disposal plans):  |                            |
| vi. Describe any plans or designs to capture, recycle or reuse liquid waste:   |                            |
|  |                            |
| e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point   | □ Yes □ No                 |
| sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point   | = 103 = 110                |
| source (i.e. sheet flow) during construction or post construction?   |                            |
| If Yes:  |                            |
| i. How much impervious surface will the project create in relation to total size of project parcel?  |                            |
| Square feet or acres (impervious surface)  |                            |
| Square feet or acres (parcel size)   |                            |
| ii. Describe types of new point sources.   |                            |
| iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent pr groundwater, on-site surface water or off-site surface waters)? | roperties,                 |
| If to surface waters, identify receiving water bodies or wetlands:   |                            |
|  |                            |
| Will stormwater runoff flow to adjacent properties?  | □ Yes □ No                 |
| <i>iv.</i> Does the proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater?   | □ Yes □ No                 |
| f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel  | □ Yes □ No                 |
| combustion, waste incineration, or other processes or operations?  |                            |
| If Yes, identify:  i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)   |                            |
| i. Mobile sources during project operations (e.g., neavy equipment, neet of derivery venicles)   |                            |
| ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)   |                            |
| iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)  |                            |
| g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit,   | □ Yes □ No                 |
| or Federal Clean Air Act Title IV or Title V Permit?   |                            |
| If Yes:  |                            |
| i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet  | $\square$ Yes $\square$ No |
| ambient air quality standards for all or some parts of the year)   |                            |
| ii. In addition to emissions as calculated in the application, the project will generate:  |                            |
| •Tons/year (short tons) of Carbon Dioxide (CO <sub>2</sub> )   |                            |
| •Tons/year (short tons) of Nitrous Oxide (N <sub>2</sub> O)  |                            |
| •Tons/year (short tons) of Perfluorocarbons (PFCs)   |                            |
| •Tons/year (short tons) of Sulfur Hexafluoride (SF <sub>6</sub> )  |                            |
| <ul> <li>Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)</li> <li>Tons/year (short tons) of Hazardous Air Pollutants (HAPs)</li> </ul>                |                            |
| • 1005/year (Shorr rous) of fiazardous All Foliutains (fiaps)  |                            |

| h. Will the proposed action generate or emit methane (included landfills, composting facilities)?  If Yes:   | ling, but not limited to, sewage treatment plants,  | □ Yes □ No      |

| q. Is the project site or adjoining area currently used for I If yes, give a brief description of how the proposed actio  | hunting, trapping, fishing or shell fishing? on may affect that use: | □ Yes □ No |
| E.3. Designated Public Resources On or Near Projec  | et Site  |            |
| a. Is the project site, or any portion of it, located in a des. Agriculture and Markets Law, Article 25-AA, Section If Yes, provide county plus district name/number:   | n 303 and 304?   | □ Yes □ No |
| b. Are agricultural lands consisting of highly productive <i>i</i> . If Yes: acreage(s) on project site?  | •  | □ Yes □ No |
| c. Does the project site contain all or part of, or is it substitute. Natural Landmark?  If Yes:  i. Nature of the natural landmark: □ Biological ii. Provide brief description of landmark, including val  |  | □ Yes □ No |
| d. Is the project site located in or does it adjoin a state list If Yes:  i. CEA name:  ii. Basis for designation:  | sted Critical Environmental Area?                                    | □ Yes □ No |
| iii. Designating agency and date:   |  |            |

| e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commission Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Place If Yes:  i. Nature of historic/archaeological resource:   Archaeological Site   Historic Building or District   ii. Name:   iii. Brief description of attributes on which listing is based: |               |
|---|---------------|
| f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?   | □ Yes □ No    |
| g. Have additional archaeological or historic site(s) or resources been identified on the project site?  If Yes:  i. Describe possible resource(s):  ii. Basis for identification:  | □ Yes □ No    |
| h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?  If Yes:  i. Identify resource:  ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or so  | □ Yes □ No    |
| etc.):  |               |
| iii. Distance between project and resource: miles.  |               |
| <ul> <li>i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666?</li> <li>If Yes: <ul> <li>i. Identify the name of the river and its designation:</li> </ul> </li> </ul>  | □ Yes □ No    |
| ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?  | □ Yes □ No    |
| F. Additional Information Attach any additional information which may be needed to clarify your project.  If you have identified any adverse impacts which could be associated with your proposal, please describe those imp measures which you propose to avoid or minimize them.  | acts plus any |

# Full Environmental Assessment Form Part 2 - Identification of Potential Project Impacts

Project : Date :

**Part 2 is to be completed by the lead agency.** Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

## **Tips for completing Part 2:**

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

| Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1)  If "Yes", answer questions a - j. If "No", move on to Section 2. | □ NO □ YES                        |  | YES   |
|--|-----------------------------------|--|---|
|  | Relevant<br>Part I<br>Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may involve construction on land where depth to water table is less than 3 feet.  | E2d                               |  |   |
| b. The proposed action may involve construction on slopes of 15% or greater.   | E2f                               |  |   |
| c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.   | E2a                               |  |   |
| d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.   | D2a                               |  |   |
| e. The proposed action may involve construction that continues for more than one year or in multiple phases.   | D1e                               |  |   |
| f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).  | D2e, D2q                          |  |   |
| g. The proposed action is, or may be, located within a Coastal Erosion hazard area.  | Bli                               |  |   |
| h. Other impacts:  |                                   |  |   |

| 2. Impact on Geological Features   |                                   |  |   |
|--|-----------------------------------|--|---|
| The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)                                      | ıt<br>□ NO                        |  | YES   |
| If "Yes", answer questions a - c. If "No", move on to Section 3.   | Relevant                          | No, or                                 | Moderate                                    |
|  | Part I<br>Question(s)             | small<br>impact<br>may occur           | to large<br>impact may<br>occur             |
| a. Identify the specific land form(s) attached:  | E2g                               |  |   |
| b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark.  Specific feature:  | E3c                               |  |   |
| c. Other impacts:  |                                   |  |   |
|  |                                   |  |   |
| 3. Impacts on Surface Water  The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)  If "Yes", answer questions a - l. If "No", move on to Section 4. | □ NC                              | ) 🗀                                    | YES   |
|  | Relevant<br>Part I<br>Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may create a new water body.  | D2b, D1h                          |  |   |
| b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.   | D2b                               |  |   |
| c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.  | D2a                               |  |   |
| d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.   | E2h                               |  |   |
| e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.  | D2a, D2h                          |  |   |
| f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.   | D2c                               |  |   |
| g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).   | D2d                               |  |   |
| h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.   | D2e                               |  |   |
| i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.   | E2h                               |  |   |
| j. The proposed action may involve the application of pesticides or herbicides in or around any water body.  | D2q, E2h                          |  |   |
| k. The proposed action may require the construction of new, or expansion of existing,  | D1a, D2d                          |  |   |

wastewater treatment facilities.

| l. Other impacts:  |                                   |  |   |
|--|-----------------------------------|--|---|
| <b>4. Impact on groundwater</b> The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)  If "Yes", answer questions a - h. If "No", move on to Section 5. | □ NC<br>er.                       | ) 🗆                                    | YES   |
|  | Relevant<br>Part I<br>Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.   | D2c                               |  |   |
| b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer.  Cite Source:   | D2c                               |  |   |
| c. The proposed action may allow or result in residential uses in areas without water and sewer services.  | D1a, D2c                          |  |   |
| d. The proposed action may include or require wastewater discharged to groundwater.  | D2d, E2l                          |  |   |
| e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.  | D2c, E1f,<br>E1g, E1h             |  |   |
| f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.   | D2p, E2l                          |  |   |
| g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.   | E2h, D2q,<br>E2l, D2c             |  |   |
| h. Other impacts:  |                                   |  |   |
| 5. Impact on Flooding  The proposed action may result in development on lands subject to flooding.  (See Part 1. E.2)  If "Yes", answer questions a - g. If "No", move on to Section 6.  | □ NC                              | ) 🗆                                    | YES   |
|  | Relevant<br>Part I<br>Question(s) | No, or small impact may occur          | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may result in development in a designated floodway.   | E2i                               |  |   |
| b. The proposed action may result in development within a 100 year floodplain.   | E2j                               |  |   |
| c. The proposed action may result in development within a 500 year floodplain.   | E2k                               |  |   |
| d. The proposed action may result in, or require, modification of existing drainage patterns.  | D2b, D2e                          |  |   |
| e. The proposed action may change flood water flows that contribute to flooding.   | D2b, E2i,<br>E2j, E2k             |  |   |
| f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?   | E1e                               |  |   |

| g. Other impacts:   |  |  |   |
|---|--|--|---|
| 6. Impacts on Air  The proposed action may include a state regulated air emission source.  (See Part 1. D.2.f., D.2.h, D.2.g)  If "Yes", answer questions a - f. If "No", move on to Section 7.   | □ NO                                   |  | YES   |
|   | Relevant<br>Part I<br>Question(s)      | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| <ul> <li>a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels: <ol> <li>i. More than 1000 tons/year of carbon dioxide (CO<sub>2</sub>)</li> <li>ii. More than 3.5 tons/year of nitrous oxide (N<sub>2</sub>O)</li> <li>iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs)</li> <li>iv. More than .045 tons/year of sulfur hexafluoride (SF<sub>6</sub>)</li> <li>v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions</li> <li>vi. 43 tons/year or more of methane</li> </ol> </li> </ul> | D2g<br>D2g<br>D2g<br>D2g<br>D2g<br>D2g |  |   |
| b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.  | D2g                                    |  |   |
| c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.   | D2f, D2g                               |  |   |
| d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.  | D2g                                    |  |   |
| e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.   | D2s                                    |  |   |
| f. Other impacts:   |  |  |   |
| 7. Impact on Plants and Animals  The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. If "Yes", answer questions a - j. If "No", move on to Section 8.   | mq.)                                   | □NO                                    | □ YES                                       |
|   | Relevant<br>Part I<br>Question(s)      | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.   | E2o                                    |  |   |
| b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.   | E2o                                    |  |   |
| c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.  | E2p                                    |  |   |
| d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.   | E2p                                    |  |   |

| e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.   | E3c  |  |   |
|---|--|--|---|
| f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community.  Source:  | E2n  |  |   |
| g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.  | E2m  |  |   |
| h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat.  Habitat type & information source:   | E1b  |  |   |
| i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.  | D2q  |  |   |
| j. Other impacts:   |  |  |   |
| 8. Impact on Agricultural Resources   |  |  |   |
| <b>8. Impact on Agricultural Resources</b> The proposed action may impact agricultural resources. (See Part 1. E.3.a. a   | and b.)  | □ NO                                   | ☐ YES                                       |
| If "Yes", answer questions a - h. If "No", move on to Section 9.  |  |  |   |

| <ul> <li>a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System.</li> <li>b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).</li> <li>c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land.</li> <li>d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District.</li> <li>e. The proposed action may disrupt or prevent installation of an agricultural land management system.</li> <li>f. The proposed action may result, directly or indirectly, in increased development</li> </ul> | Part I Question(s)  E2c, E3b  E1a, Elb  E3b  E1b, E3a  El a, E1b  C2c, C3, | small impact may occur                 | to large impact may occur                   |

| 9. Impact on Aesthetic Resources  The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.)  If "Yes", answer questions a - g. If "No", go to Section 10.  |                                   | ) 🗆                                    | YES   |
|---|-----------------------------------|--|---|
|   | Relevant<br>Part I<br>Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.   | E3h                               |  |   |
| b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.   | E3h, C2b                          |  |   |
| c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round  | E3h                               |  |   |
| <ul><li>d. The situation or activity in which viewers are engaged while viewing the proposed action is:</li><li>i. Routine travel by residents, including travel to and from work</li><li>ii. Recreational or tourism based activities</li></ul>  | E3h<br>E2q,<br>E1c                |  | _<br>_                                      |
| e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.  | E3h                               |  |   |
| f. There are similar projects visible within the following distance of the proposed project:  0-1/2 mile 1/2 -3 mile 3-5 mile 5+ mile   | D1a, E1a,<br>D1f, D1g             |  |   |
| g. Other impacts:   |                                   |  |   |
| 10. Impact on Historic and Archeological Resources  The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.)  If "Yes", answer questions a - e. If "No", go to Section 11.   |                                   | ) 🗆                                    | YES   |
|   | Relevant<br>Part I<br>Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may occur wholly or partially within, or substantially contiguous<br>to, any buildings, archaeological site or district which is listed on the National or<br>State Register of Historical Places, or that has been determined by the Commissioner<br>of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for<br>listing on the State Register of Historic Places. | E3e                               |  |   |
| b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.  | E3f                               |  |   |
| c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory.  Source:   | E3g                               |  |   |

| d. Other impacts:   |   |  |   |
|---|---|--|---|
| If any of the above (a-d) are answered "Moderate to large impact may e. occur", continue with the following questions to help support conclusions in Part 3:  |   |  |   |
| <ol> <li>The proposed action may result in the destruction or alteration of all or part<br/>of the site or property.</li> </ol>   | E3e, E3g,<br>E3f                          |  |   |
| ii. The proposed action may result in the alteration of the property's setting or integrity.  | E3e, E3f,<br>E3g, E1a,<br>E1b             |  |   |
| iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.  | E3e, E3f,<br>E3g, E3h,<br>C2, C3          |  |   |
|   |   |  |   |
| 11. Impact on Open Space and Recreation  The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan.  (See Part 1. C.2.c, E.1.c., E.2.q.)  If "Yes", answer questions a - e. If "No", go to Section 12. | □N  |  | YES   |
|   | Relevant                                  | No, or                                 | Moderate                                    |
|   | Part I<br>Question(s)                     | small<br>impact<br>may occur           | to large<br>impact may<br>occur             |
| a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.   | D2e, E1b<br>E2h,<br>E2m, E2o,<br>E2n, E2p |  |   |
| b. The proposed action may result in the loss of a current or future recreational resource.   | C2a, E1c,<br>C2c, E2q                     |  |   |
| c. The proposed action may eliminate open space or recreational resource in an area with few such resources.  | C2a, C2c<br>E1c, E2q                      |  |   |
| d. The proposed action may result in loss of an area now used informally by the community as an open space resource.  | C2c, E1c                                  |  |   |
| e. Other impacts:   |   |  |   |
| <b>12. Impact on Critical Environmental Areas</b> The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d)  If "Yes", answer questions a - c. If "No", go to Section 13.   | □ No                                      | ) [                                    | YES   |

# Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

#### **Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
  occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
  occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

| Determination of Significance - Type 1 and Unlisted Actions |          |            |          |          |           |  |  |
|---|----------|------------|----------|----------|-----------|--|--|
| SEQR Status:  | ☐ Type 1 | □ Unlisted |          |          |           |  |  |

|---|--------------------------|--|--|--|--|
|   |                          |  |  |  |  |
| and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the as lead agency that:   |                          |  |  |  |  |
| ☐ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.   |                          |  |  |  |  |
| ☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:  |                          |  |  |  |  |
|   |                          |  |  |  |  |
|   |                          |  |  |  |  |
| There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6   |                          |  |  |  |  |
| ☐ C. This Project may result in one or more significant adverse impacts on the environment, and an enstatement must be prepared to further assess the impact(s) and possible mitigation and to explore alternative impacts. Accordingly, this positive declaration is issued.           |                          |  |  |  |  |
